

## **GLA Letter of Intent Guidelines**

A single-spaced, one-page document with Arial 11-point font and 0.5-inch margins is acceptable. References are accepted on a separate page. Please provide the following:

- Investigator name
- Institutional affiliation(s)
- Project title
- Background and significance
- Hypothesis and aims
- Brief description of proposed experiments
- Preliminary data (optional)
- Potential impact for patients with Lyme disease and/or other vector-borne illnesses

Potential impact for patients is a particularly important criterion when evaluating program alignment with GLA goals to improve patients' lives.
